

# EMBEDDED ANPR/MMCR

## THE POWER OF ANPR AT THE EDGE

- Embedded ANPR without the need for servers
- Make, Model and Colour (MMCR) along with ANPR
- Range of camera types and models
- > 95% ANPR accuracy , > 90% MMCR
- Deny and allow management on camera
- Global regions for ANPR+MMCR
- Export all vehicles or violaters only to csv / pdf\*
- API, HTTP/TCP notifications for connection to external Databases and management systems
- Client-based database for managing distributed camera network\*

## EMBEDDED ANPR/MMCR

### CONVERT IPAi CAMERA INTO ANPR/MMCR DEVICE

Available across the IPAi range, the plugin can turn the camera into a licence plate detector with the added optional feature of make, model and colour recognition. Used as part of an integrated solution or standalone ANPR system, no server.

### MMCR

Detects vehicle license plates, manufacturer, brand, colour and types\*

\*MMCR accuracy is reduced in views that are not illuminated.

### STANDALONE OR INTEGRATED

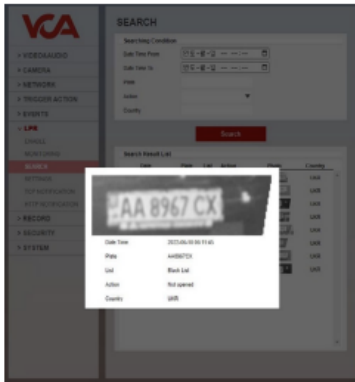

The plugin has an onboard database for storing license plates and provides an easy-to-use interface to configure deny/allow lists and produce events. Alternatively, data can be sent to endpoint for third party integration.

### LIGHT FILTER

By making adjustments to the camera settings, the plugin reduces the phenomenon of blocking the license plate caused by automobile headlights has been minimized.
