Camera Introduction

- ① Bracket
- ② Daylight Sensor
- ③ Microphone
- ④ Lens
- ⑤ IR LED
- ⑥ Spotlight
- ⑦ microSD Card Slot
- ⑧ Reset Button
- ⑨ Speaker
- ⑩ LAN Port
- ⑪ Power Port (Optional)

Connection Diagram

Before using the camera, please connect your camera as instructed below to finish initial setup.

1. Connect the camera to a Reolink NVR (not included) with an Ethernet cable.
2. Connect the NVR to your router, and then power on the NVR.

NOTE: The camera should be powered with a 12V DC adapter or a PoE powering devices such as the PoE injector, PoE switch or Reolink NVR (not included in the package).

* You may also connect the camera to a PoE switch or PoE injector.

Set up the Camera

Download and launch the Reolink App or Client software, and follow the onscreen instructions to finish the initial setup.

• On Smartphone

Scan to download the Reolink App.

• On PC

Download path of the Reolink Client: Go to <https://reolink.com> > Support > App & Client.

NOTE: If you are connecting the camera to a Reolink PoE NVR, please set up the camera via the NVR interface.

Mount the Camera

Installation Tips

- Do not face the camera towards any light sources.
- Do not point the camera towards a glass window. Otherwise, it may result in poor image quality because of the window glare caused by infrared LEDs, ambient lights or status lights.
- Do not place the camera in a shaded area while pointing it towards a well-lit area. Otherwise, it may result in poor image quality. To ensure best image quality, the lighting conditions for both the camera and the captured object should be the same.
- Make sure the power ports are not directly exposed to water or moisture and not blocked by dirt or other elements.
- The waterproof camera can work properly under conditions like rain and snow. However, it doesn't mean the camera can work underwater.
- Do not install the camera at places where rain and snow can hit the lens directly.

Install the Camera

Wall Mounting

1. Connect the wire rope anchor between the camera and the bracket.

2. Put the mounting template on the desired position of the wall and drill holes accordingly.

3. Install two screws into the upper two holes and hang the bracket over them.

4. Install another two screws into the lower two holes to secure the bracket.

Ceiling Mounting

1. Loosen the screws to detach the camera from the bracket.

2. Loosen the two screws from the internal and external of the bracket, and swivel it so that it is vertical to the ceiling. Then tighten the screws on the bracket.

3. Connect the wire rope anchor between the camera and the bracket.

4. Put the mounting template on the desired position of the ceiling and drill holes accordingly, then insert the drywall anchors.

5. Secure the bracket base to the mounting surface with screws.

Troubleshooting

Camera Is Not Powering On

If your camera is not powering on, please try the following solutions:

- Make sure your camera is powered on properly. The PoE camera should be powered by a PoE switch/injector, a Reolink NVR or a 12V 2A power adapter.
- If the camera is connected to a PoE device as listed above, connect it to another PoE port and check again.
- Try again with another Ethernet cable.

If these won't work, contact Reolink Support <https://support.reolink.com>.

Picture Is Not Clear

If the picture from the camera is not clear, please try the following solutions:

- Check the camera lens for dirt, dust or spiderwebs, Please clean the lens with a soft, clean cloth.
- Point the camera to a well-lit area, The lighting condition will affect the picture quality a lot.
- Upgrade the firmware of your camera to the latest version.

- Restore the camera to factory settings and check it again again.

If these won't work, contact Reolink Support at <https://support.reolink.com>.

Pan & Tilt Is Not Working

If the pan & tilt feature is not working, please try the following solutions:

- Power cycle the camera and see if it will automatically pan/tilt. If not, the camera may be faulty. If yes, please refer to the further steps.
- If the camera fails to pan/tilt via Reolink App/Client on the WAN (remotely), try it on the LAN (locally) and see if it works.
- Upgrade the Reolink App/Client and the camera firmware to the latest version.
- Restore the camera to factory settings and check the pan/tilt again.

If these won't work, contact Reolink Support at <https://support.reolink.com>.

Specifications

General

Dimensions: 373*177*140mm (Ceiling Mount)

Weight: 2.34 kg

Operating Temperature: -10°C to 55°C (14°F to 131°F)

Operating Humidity: 10%-90%
