CE UKCA RoHS COMPLIANT

RJ11 & RJ45 Rapid Crimping tool

Instructions for use

1. Gently squeeze the handle and then push the lock button to unlock the tool.
2. Put the cable into the wire stripping hole to strip the required cable sheathing.
3. Arrange the wire/core sequence and the cut the cores flat to the requires length using the cutting hole.
4. Insert the cores into the crimp, then push the crimp into the correct crimping socket.
5. Press the handle until you hear a click and the crimp will now be fitted.
