UTILITY KNIFE

Safety Trimming Knife, Trapezoid Blade

This durable ADI Pro safety trimming knife/utility knife is the perfect addition to the professional installer's tool kit. The knife is designed for cutting materials within an industrial and commercial environment, and being lightweight and ergonomically designed, is comfortable to use for extended periods. Additionally, the knife also offers an auto-retracting mechanism to allow for optimum safety precautions for the user, as well as ensuring that the blade is stored away safely to prevent it from being blunted when not in use.

WBXSAFETY-KNIFE

FEATURES

- **A secure zinc alloy body prevents the blade from flexing under pressure when cutting**
- **Ergonomically designed, hard-wearing, lightweight alloy body for optimum user comfort**
- **Ridged thumb groove for superior grip and control, especially when applying pressure on stubborn materials**
- **The auto-retracting mechanism ensures user safety when not in use**
- **Innovative body design allows for safe, easy, efficient blade changes**
- **Supplied with 1 x high carbon steel trapezoid knife blade**

Product Specifications
