- Temperature monitoring.
- Offers frequency hopping and two-way communication technology,ensuring the stability of communication.
- Cloud update and automatic recovery from update failure.
- Suitable for the ARC3000H series and ARC3800H series only, excluding the ARA43 series.

System Overview

With its built-in 2 MP CMOS image sensor, PIR-Camera captures high-definition snapshots when it detects intrusions,transmitting them to the alarm hub, where they are then sent to the mobile app or alarm center (CMS/ARC) for you to perform visual alarm verification. The camera harnesses 2.4G RF-HD transmission technology to improve the resolution of images and the speed they are transmitted at. Built to keep you safe, the camera actively protects your privacy by only taking snapshots when an intrusion occurs.

Scene

Wireless PIR-Camera is ideal for use in villas, apartments and office buildings.
