NUKI BRIDGE DATA SHEET

Nuki Bridge

Stay connected

NUKI

Use all advantages of your Nuki Smart Lock: With the Nuki Bridge you receive online access to your Smart Lock - anywhere and anytime!

The Nuki Bridge brings your Nuki Smart Lock online, so you can manage and control it remotely with the Nuki app anytime and anywhere. Thereby, the combination of Nuki Smart Lock and Nuki Bridge opens the door to a new dimension of smart living.

Remote unlock

The Nuki Bridge brings your Nuki Smart Lock online. From now on it is possible to open the door for a craftspeople, dog sitter or delivery services, even if you are not at home.

24/7 control

Stay in perfect control of who came or left your home while you're at work, on the move or on holiday thanks to the round-the-clock activity log that tells you anytime who entered or left your home.

Smart Home integration

By using the Nuki Bridge you can connect your Nuki Smart Lock to numerous other Smart Home products like Amazon Alexa and turn your home into a really smart house.
