UH-PS3

UNIVERSAL METAL ENCLOSURE WITH POWER SUPPLY

UH-PS3 is a metal enclosure with power supply included. It can be used with some of our online controllers, keypads, remote relay units, converters and relay boards.

As it is a universal enclosure, it can be used to include more than one product inside. So there is no need to obtain a different enclosure for any new product that is wanted to be installed.

The power supply allows to charge an emergency battery, to prevent possible power-outages.

SPECIFICATIONS

- Input voltage: 100-240 VAC; 50/60 Hz
- Output voltage: 13.8 VDC
- Output current: Maximum 3.6 A
